WHE•BOT™

EL•BOT™

WHE•BOT AND EL•BOT

Both WHE•BOT's and EL•BOT's head can be turned to the left or to the right. Arms can be moved to the left or right, and raised or lowered. Since the hands are spring controlled, they can grasp or hold a small item in them. Give each LOV•BO•GI•BOTS a gentle push forward, and they wheel off!

WHE•BOT

Push down the cover on WHE•BOT's secret compartment. Insert a LOV•BUD, press her head down, and out comes the heart-shaped flower!

EL•BOT

Press EL•BOT's head down, release it, and you'll see three symbols displayed on the screen in the middle of his chest.

Here are some suggestions when you get any three symbols alike:

- 3 Moons—Give your mom or dad a kiss.
- 3 Flowers—Give your LOV•BO•GI•BOTS a kiss.
- 3 Suns—Give your friend a hug.

You can make your own rules and play games with your friends.

LOV•TALKS™ LOV•BO•GI•BOTS™

#900461

NE•BOT requires 1 9-volt alkaline battery (not included).

TO INSERT BATTERY INTO NE•BOT

Holding NE•BOT upside down, remove the cover from the battery box located on the underside. Insert the 9-volt battery as indicated, and replace the cover.

You can turn the head of each LOV•BOT to the left or to the right.

IN•BOT™

NE•BOT™

IN•BOT's arms can be raised or lowered, and swiveted out to the sides. NE•BOT's arms can be raised or lowered, and bent at the elbows. Both LOV•BOTS can hold small items in their grasps.

IN•BOT AND NE•BOT

A volume control dial is located on the back of NE•BOT.

At each end of the 63-foot cord, there's a jack. Connect the LOV•BOTS by inserting one jack into the hole at the lower back area of IN•BOT and the other into the hole at the lower back area of NE•BOT.

To call, or to indicate to the person at the other end that you would like to send or transmit a message, press the head of your LOV•BOT down. Make sure that the switch on NE•BOT's chest is on the OFF/CALL position.

To talk or transmit a message to the other person, turn the switch on the front of NE•BOT to the ON position. Place your mouth near the speaker, talk into it, and your voice will be heard by the person on the other end. To respond to what the other person said, press your LOV•BOT's head down, talk into the speaker, and your friend will hear your reply.

When you're through talking to your friend, turn the switch on NE•BOT's chest to OFF/CALL position.

HOW TO SET THE LIQUID CRYSTAL DISPLAY (LCD)

TO SET THE TIME

- Start with the present time. Press (A) button six (6) times. Now you can set the hour. On the LCD you will see, for example 12:00 (A is the abbreviation for AM; P is the abbreviation for PM and H is the abbreviation for HOUR). Then, press (B) button to change the hour (To return to the present time from the hour set, press (A) button twice).
- Press (A) button again to see the minute on the LCD. Press (B) button to change the minute (To return to the present time, press (A) button once. To start the clock, press (B) button).

TO SET THE ALARM

- Start with the present time. Press (A) button twice. Now you can set the alarm by pressing (B) button to change the alarm time. If the alarm time was set with the mode, the alarm will also change in the hour mode. For example, if the time was set in AM, then the alarm will also be set in AM (To return to the present time, press (A) button twice).

TO SET THE MINUTE

- Press (A) button until the minute is on the LCD display. By pressing (B) button, you can set the minute from :00-59 (To return to the present time, push (A) button once).

To release or set the alarm from the present time, push (A) button once, and the alarm time will be seen on the LCD.

The first time you press (B) button, it's for alarm set.

The second time you press (B) button, it's for alarm and chime set.

The third time you press (B) button, it's for the chime set.

The fourth time you press (A) button, it's for the alarm release.

Chime—At exactly every hour, RA•BOT will make a 'peeng' sound.

Alarm—Sound will last for 30 seconds. To stop the alarm, press (B) button.

TO SET THE MONTH AND DATE

- Start with the present time.
- For the month display, press (A) button four (4) times, then select the month, from 1 to 12, by pressing (B) button.
- For the date, press (A) button again. By pressing (B) button, you can select the date (from 1 to 31).
- To return to the present time, press (A) button three (3) times.

TO SET THE SECOND

- Start with the present time.
- Press (B) button three (3) times. Press (A) button, and the LCD will change to :00. Release (A) button and the seconds will change. To return to the present time, press (B) button.

When using (B) button for alarm, month or date display, after three seconds, RA•BOT's LCD will show the present time.

When it's afternoon, there will be a small PM displayed near the top, left hand corner.
