

ROBOQUAD™

A FUSION OF TECHNOLOGY AND PERSONALITY

Dec 06 - Ver. 02

ROBOQUAD™

A FUSION OF TECHNOLOGY AND PERSONALITY

The Roboquad™ invasion – Intelligent life has landed. Roboquad is an inquisitive robot with unique movements and an advanced sensor array. Change his Awareness, Activity or Aggression levels to completely alter his personality and behaviors. Interact with his long range, IR scanner and sound sensor, control him with the full function remote and watch him react in extraordinary ways. Roboquad even has an extended battery life for prolonged missions.

Remote Controller

68 function, illuminated remote to control Roboquad's movements and behaviour.

Item #:	8039
Age Grading:	8+
UPC:	771171180395
Ctn. Quan:	2
Cu.ft:	3.2
Package Dims:	16"L x 13"D x 12"H
Carton Dims:	16.5"L x 13.5"D x 24.75"H
Battery Req.:	4°C", 3"AAA"(Sold Separately)

Roboquad

Advanced Awareness

Roboquad is more aware than any other robot thanks to his IR scanner and advanced A.I. Able to spot movement from up to 10 feet away, he can also search for and navigate doorways, and detect tables edges.

Light Sensor

When the light goes out, Roboquad keeps going, turning on his head-mounted LEDs. His reactions and behaviors change as darkness falls.

Sound Sensor

Roboquad reacts to sound by quickly scanning his environment for intruders.

Personality Settings

Control Roboquad's autonomous behavior and the way he reacts to your presence by setting the Awareness, Activity or Aggression states to low, medium or high using the controller.

State of Awareness

Roboquad's awareness level affects the amount of information he processes through his sensors: at higher levels, he'll see everything and spend more time in active scanning routines.

State of Aggression

His aggression level affects his reaction to sensory input: high levels make him more angry and aggressive, and low levels make him more nervous and shy.

State of Activity

At high activity levels, Roboquad will be more active, and travel further distances, and at faster speeds.

Unique Movement

Roboquad's state and level setting influence his unique movements. Leave him in autonomous mode to swarm around his environment, or use the remote to control him directly.

TECHNICAL SPECIFICATIONS

ROBOT
4 X LEG MOTORS
2 X HEAD AND NECK MOTORS
LENS-FOCUSED, FACE-MOUNTED DEEP IR RADAR VISION
1 X MICROPHONE
1 X LIGHT SENSOR

Roboquad™ includes a battery-saving sleep function.
