

Space Armor User Guide

27107

Introduction

Thank you for choosing the No. 27107 infrared remote control robot.

Space Armor is able to rotate its head, turn left/right, walk forwards/backwards and slide forwards/backwards, and features dance function and frisbee sending function. It will be your recreational and perfect fellow!

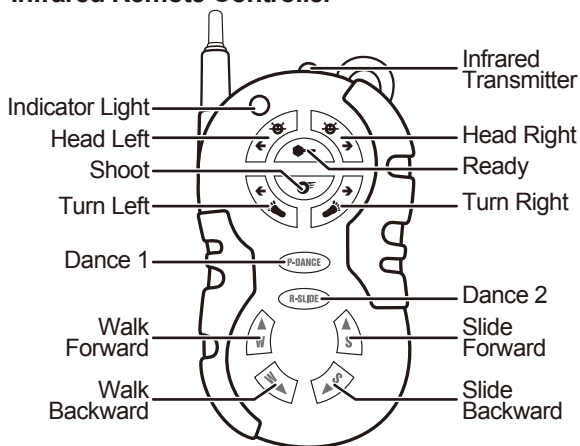

Read the instruction mentioned below carefully before using it, so you will know our product better and be familiar with its function operation.

Function setting

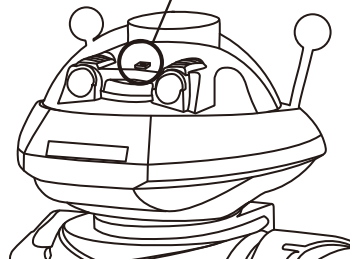

1. Push the switch to "ON", the power is on, then press the "START" button on the upper body of Robot to enter into sound function practice and before its sound's ending any functions' operating is ineffective.
2. The Robot's eyes will shine during all operation.
3. The system keeps awaiting if you won't operate it in a while and it will be auto-off in 3 minutes. Push the switch to "OFF", the power is off.

Operating Instruction

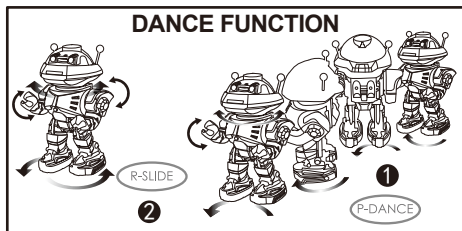

Infrared Remote Controller

Infrared Receiver

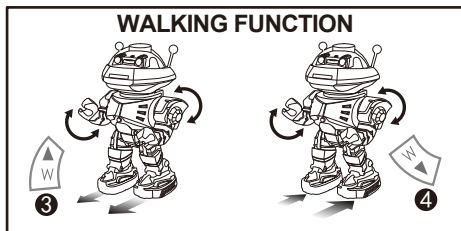

CAUTION: To operate it at its best, the controller should be aiming at the receiver on the robot's head.

On pressing the button ① "P-DANCE", the Robot will show you a wonderful dance after its suggestive sound. While dancing, its head will turn, arm will swing and both feet walk up and down and slide.

On pressing the button ② "R-SLIDE", the Robot will show you a wonderful dance after its suggestive sound, while dancing its head will turn, both feet slide up and down and arms swing at the same time.

③ Press the button to control both of its feet walk forwards, arm swing and realistic sound out.

④ Press the button to control both of its feet walk backwards, arm swing and realistic sound out.

HEAD FUNCTION

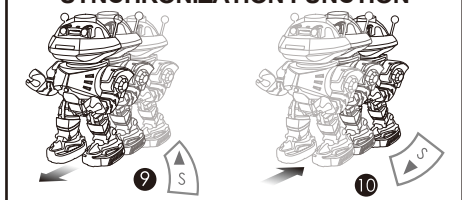

- ⑤ Press the button to control its head turn to left and sound out.
- ⑥ Press the button to control its head turn to right and sound out.

TURNING FUNCTION

- ⑦ Press the button to control it turn to left.
- ⑧ Press the button to control it turn to right.

SYNCHRONIZATION FUNCTION

- ⑨ Press the button to control both of its feet slide forwards synchronously.
- ⑩ Press the button to control both of its feet slide backwards synchronously.

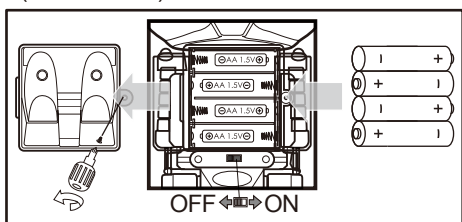

FRISBEE SENDING

It includes two steps in the function: Press the button ⑪ and after its sound suggestion, press the button ⑫ to send the frisbees. You can operate it many times in a certain time. (If the operating order is reverse, you can't send frisbees. Put the frisbees into the round canister on its head before operating.)
